No. 39

National Emergency

Relief Appeal

It is generally known that the Red Cross Society is the instrumentality chosen under the Treaty of Versailles to co-ordinate the efforts of the various countries signatory to the Treaty, for assisting in the improvement of health, the prevention of disease and the mitigation of suffering throughout the world, and taking this into consideration it would appear to be the only organization for a national appeal for a emergency fund to deal with the suffering, sickness and distress that will be found throughout the various parts of Canada during the winter.

While the government, Dominion and Provincial, and the Municipalities are expected to do much to relieve the situation, many cases have already come to light which cannot be dealt with under ordinary relief measures, and recognizing this with the fact that it is a national emergency, the Prime Minister of Canada, Rt. Hon. R. B. Bennett, addressed an appeal to the Premiers of all Provinces for the organization of a National Emergency Organization and Campaign, which would provide the funds required to carry on this work.

The Premiers have responded wholeheartedly to this suggestion, with the result that Provincial Committees have been organized to undertake this work, and in Alberta the Committee consists of the Mayors of all the Cities, with other appointees. In addition, the Alberta organizations have been divided into two districts, with a Committee in Edmonton looking after the work in the Northern part of the Province, and a Committee in Calgary for the Southern part.

The purpose of the organization is to launch an appeal for funds the objective for Alberta is the sum of \$100,000.00 and the campaign will be opened on December 10th next, when radio addresses will be given by prominent leaders.

The funds raised through this appeal will be administered by the Red Cross Society, with the advice and assistance of the Provincial Committee and the campaign which will soon be launched will take the place of the ordinary Red Cross Appeal.

While it is possible that some organizations will prefer to carry on their own work, it is hoped that as far as possible all interested organizations will be prepared to co-operate with the Provincial Committee and the Red Cross to secure the most benefit from this effort, as by so doing, the overlapping will be eliminated and it will be possible to bring about the greatest good to the greatest number.

It is proposed to organize local committees in each district so that a thorough canvass will be made, and it is hoped that those interested will stress among their friends the necessity for the appeal on the ground that while official measures are covering much of the need, there are special cases and situations in which a voluntary organization, unhampered by red tape, can act more efficiently than any official body.

The suggestion has been made that many interested people, who would otherwise be unable to take part in this appeal, owing to the prevailing conditions, may be prepared to assist the appeal by making contributions of grain, and to enable this to be done, arrangements are being made by which elevator agents will be able to accept such donations and to make the grain tickets transferable to the National Emergency Relief Fund.

The residents of Alberta responded to the emergency calls made during the war, and with the conditions now prevailing there is reason to expect an equally generous response to this Emergency Appeal.

All readers are requested to be ready to take part in this campaign when it opens on Dec. 10, next, and to assist in making the appeal a success.

The sidewalks were covered with ice in places the first part of the week and when the sun went down and the air got frosty were slippery and very dangerous. Most of them are cleared off now.

Ward Conference

At Second Ward

The Annual Ward Conference of the Raymond Second Ward was held last Sunday night with Pres. H. S. Allen in charge and Bishop Jas. H. Walker presiding over the meeting. The Ward Choir under the leadership of Chas. B. Strong was present and furnished a number of appropriate selections.

After the singing of "Come, Come Ye Saints, Elder J. F. Salmon offered prayer and the Choir then sang "O Lord Thy Mercy Blessing" following which the Sacrament was administered under the direction of the Bishop.

Howard Rasmussen and Elder W. H. Smith who had just returned from missionary work in Regina and vicinity then spoke briefly and expressed the gratitude for the opportunities they had enjoyed in doing missionary work and bore their testimonies to the truthfulness of the Gospel.

Bishop Walker then gave a comprehensive report of the organizations of the Ward, each one being fully organized, and all showing an increase in enrollment and attendance over the previous year. Speaking of the Ward he stated an increase in membership had been made and that the 1,000 mark would be reached before another year. The people were paying good

tithe and offerings, and was pleased to report the financial condition of the Ward and the prospects of finishing and paying for the Chapel now under construction.

Mrs. L. D. King and J. H. Walker then sang a vocal solo "When I Come to the End of the Road."

Pres. O. H. Snow spoke of the troubles we were having in financial affairs, and spoke on the Word of Wisdom, stating his conviction that if this law were lived by all mankind that it would go far toward solving the present problems of unemployment and discontent.

The Choir sang "Pilgrim's Chorus." Pres. H. S. Allen then spoke and voiced appreciation of the optimism of Bishop Walker in his reports and said what a fine thing it would be if all the boys and girls would keep themselves clean and pure. The Word of Wisdom was not all the Gospel, but was a very important part of it, and will very likely prevent people from enjoying the higher things of the Gospel. He spoke on the life and labors of Pres. Grant and related some of his testimonies.

The Ward authorities were then presented and after singing Doxology the benediction was pronounced by Pres. J. W. Evans.

Emergency Relief

Committee Organized

At a meeting in the Town Hall on Wednesday night at which about twenty were present a local committee was organized to look after the gathering and distribution of funds, clothing and food for the National Emergency Relief Campaign, which is nationwide, and the drive for which will start all over Canada on Thursday next December 10th.

Mayor Meeks was in the Chair and the first speaker of the evening was Mr. Blackburn of Lethbridge who outlined the purpose of the organization, and stated the allotment of Alberta was \$100,000.00, and the province had been divided into two parts. Red Deer being the dividing line, and the south country had been subdivided into four districts, viz. Calgary, Drumheller, Medicine Hat, and Lethbridge. The aim is to get means and food, etc., to alleviate suffering, and after the collection is over, the Red Cross will help in the distribution. Many can help with produce who cannot help with cash, and free transportation will be given by the railways, so that this produce can be hauled to central points and converted into cash and then the necessary supplies obtained and brought in for relief.

D. H. Elton, of Lethbridge then read some of the explanatory correspondence to the Committee, and said that 50 per cent of the funds stayed in Alberta, and 50 per cent went to headquarters at Toronto, from which point they were again distributed not on a basis of contribution, but on the basis of need, so that it would be to our advantage to contribute and reach the aim and then we would receive a great deal more back per capita than some of the provinces where the need was not so great as ours.

H. Ottend, of Lethbridge then spoke on the organization and stated that a good live Chairman and Secretary were the first requirements, and suggested that every organization in the town and district be given representation on the Committee.

After some discussion it was decided that the personnel of the Committee be left to the Chairman and Secretary.

Mayor Meek was chosen as Chairman, and Mrs. M. T. Powelson as Secretary, after which the meeting adjourned.

Special Bulletin

The World's Grain Exhibition and Conference will be held at Regina, Canada, July 24 to August 5, 1933.

This decision was reached at a meeting of the National Committee of the organization held a few days ago at Toronto.

It will be recalled that some time ago, in view of existing world-wide conditions, the Executive Committee agreed to postpone the Exhibition and Conference for one year.

At the request of the committee Hon. Robert Weir, Minister of Agriculture for Canada and Chairman of the National Committee, took the question under advisement, and later, informed the Executive Committee that he was agreeable to the undertaking being postponed until 1933.

The decision has now been concurred in by the National Committee and the undertaking will be carried out as originally planned in 1933 instead of 1932.

The Managing Director of the Exhibition and Conference, in addressing the National Committee pointed out that the producers of Canada and other grain growing countries, as a result of postponement, have an additional year in which to prepare exhibits for the competitive grain classes. He maintained also that the organization had played an important part in the past two years in giving assistance to the agricultural industry of the Dominion. These educational activities will be continued.

The countries, states and provinces which had arranged to take part in the Exhibition, when the date was originally set for 1932, will, in all probability, continue their plans for 1933.

High School Column

CAMPUS CAPERS

The opening dance on Friday last was an outstanding success both socially and financially.

The hall was decorated with the colors of the school orange and black and coupled with the many colored streamers made the old gym look "almost dainty."

Coach S. E. Low is gradually rounding the basketball team into shape. With the old stalwarts, Galbraith, Kirkham, Weaver and Nisler and an abundance of new material. Coach Low hopes to win the Interscholastic Championship for the fifth time in succession. If he does—What a record.

P. H. Ridd is again with us and says that the depression is no worse in Raymond than at points farther North. Imagine that, you pussies.

Our Minister of Literacy, Miss Ruth Evans, conducted an excellent literary sponsored by the sophas on Saturday last. It proved a very entertaining and amusing affair, especially our Editor's forecast of the year 1945.

News Notes

Willis Fawns was over from Stirling on Wednesday of this week.

Why not now for that picture you have been waiting for. Make appointments at the Raymond Photo Studio today.

Stake Priesthood Meeting Held

The regular monthly Stake Priesthood Meeting of the Taylor Stake was held last Sunday in the Stake House with Pres. H. S. Allen in charge, and a large attendance present. The Stake Board Meetings preceding the regular session were all quite well attended despite the fact that the snow had been drifting badly and the roads were in pretty bad shape, especially off the gravel.

Following the opening exercises and the usual routine business of the meeting the members of the Stake Presidency spoke briefly and encouraged and instructed the audience in matters of temporal and spiritual moment. Pres. Evans spoke first and referred to the statement of Bahson, the great statistician regarding the direct effect of spirituality on the every day affairs of the people, and his conviction that a return to God and the Church would supersede a return of prosperity.

Pres. O. H. Snow spoke of the conditions in the world and the calls for relief and help that were being made on the people. He announced an organization meeting of a Red Cross local to help deal with the gathering and distribution of supplies throughout the Province.

Pres. Allen advised the people to do their utmost to pay their obligations, and stated that postponing taxes, and like debts would only result in making the business of getting square that much more difficult. He also advised the payment of as much tithing as possible as the Church had heavy demands for funds and the tithing of the members was the great source of revenue for the Church. He felt like better times were near and advised all to be economical and frugal while we were getting over the present slump in prices for products.

Rice from the Philippines is already stored in Regina awaiting the Exhibition, and an exhibit of wheat from Indore, Central India, is on its way.

Fifty of the world's greatest agricultural experts have agreed to give addresses at the Conference.

"PEACE"

(By MAC KICKEN)

Peace is defined as "quiet" or "tranquility." To me it means a time when no two countries have disagreements. Peace is a necessary condition if we wish to improve our country. It is also one of the most important factors in foreign trade. A calm lake is clean and to the opposite by disturbance of the atmosphere. Similarly peace is changed to war by one country distorting another. In short peace is what the world needs and wants but what it finds hard to obtain.

Why don't we have peace? This question has a large answer if it is solved thoroughly. One of the main reasons is because one country suspects another. Although Germany is under the terrible strain of paying off her war debt, she still continues to prepare for war. All nations are doing likewise. War is a thing man seems to cause instinctively. A second reason is the fact that all nations are more or less "greedy." One nation covets another's wealth and land, a third nation is jealous. When Napoleon tried to conquer the world England was jealous so she joined with other nations and subdued the ambitious emperor. We cannot have peace as long as we maintain our covetous habits. We must also overcome jealousy and suspicion.

War is an expensive practice. During it we have to borrow money to support our armies. If the war is in our own country our land is utterly destroyed by explosives. When a torpedo is shot it may hit a ship. This costs about a thousand dollars worth of explosives to blow up for no benefit. When our battleships are blown up we lose millions of dollars in materials and equipment. Many people are drowned besides the loss of the ship. Airplanes, dirigibles, balloons, ships, and expensive buildings are destroyed in war. Human life is taken as if it were worthless. After every war the combatants have decided that peace is cheaper.

If we had continual war perhaps the following things would happen. We would have no time to get a good education. The people of the earth would all perish. Scientists would have no time to invent things for the betterment of the world because they would be planning means of destruction. In the last war in Belgium and France people had to leave their homes. When they returned they found their property so torn to pieces that it was of no value. If we want prosperity we must learn that peace is essential.

Is anything to be gained by peace?

First Ward Well Attended

The Capitol was the centre of attraction the first three nights of this week when the Contest plays of the First Ward M. I. A. were presented there in connection with a change of Talking Pictures each night. Shown at the price of three shows for a dollar, or an average of slightly over 15 cents a show, as there were two shows each night, it made big value for the money and a great many took advantage of the generous offer.

In the dramas a wealth of new talent was discovered and showed to good advantage, holding great promise for the future and the Talking each night was well worth the entire price of admission.

From the three shows presented this week will be chosen the one to be shown in contest against the other wards of the Stake in the Tryouts next Spring.

Big Night at 2nd Ward Mutual

A full house was present Tuesday night at the Second Ward when in connection with the regular Mutual program three short sketches and a play were presented.

Prior to Mutual work the Ward Primary gave a sketch called "Nick and Time" and portrayed the dangers of the Tobacco Habit and the case with which the habit fastens itself on one. Then eight girls sang "In Our Lovely Desert" and "Hope of Israel" and portrayed the beauties of the "Word of Wisdom." Following this one of the older groups presented the one act play "A Lamentable Maiden," which taught a good lesson from the Book of Mormon.

Following the Mutual Work, the Vaguettes and Junior Girls, put on a one act play comedy called "Who's Crazy Now." The young people who took part in this were new ones at stage work, and considering that comedy is at best difficult to portray they made a very good impression and are worthy of praise. Miss Jones their coach is to be complimented on the creditable performance, and they should be heard from again.

Yes, I think it will reduce our national debt. Also we will live longer and more pleasant lives. To some of us it may appear that some of the wars of the past were needed, "but I believe that we are now at the stage where we can do without war and live in peace."

THE RELIEF CAMPAIGN

On Thursday, December 10th, throughout the length and breadth of Canada, a well organized drive for relief will be put under way. To gather money, food and clothing to assist the suffering and want in the homes of families of Canadians, some Canadians by birth, others by naturalization, but all Canadians; and the answer of those who have will be best expressed in liberality in contributing.

What will the answer of Raymond and district be in this matter? It is doubtful if there could be found a community in all Canada more favorably situated than we are. There is suffering in our midst to some extent. It is true, and none of us are without worries over temporal affairs; but, after all is said and done, we are pretty well provided for in the necessities and comforts of life, and those who do not have them, generally have the visible means of obtaining them, so there is little fear of any serious suffering and privation.

This is the rule. There are exceptions, of course, and it is to look after these exceptions that this Campaign is put on. The Committee is largely self-administering, and where directions of want are found, these cases will be cared for immediately, and want and suffering allayed. The district will be so organized that every house will be visited, and in these visits cases of privation and suffering will be discovered and assistance given at once.

There are many people who cannot receive relief under the laws and statutes of the Dominion and Province, and yet whose wives and children are in need of help, and all these cases will be looked after. There are those too, who are in need, who are saying nothing, and suffering in silence, and these cases will be looked after.

The committee members realize that money is scarce, and for this reason arrangements have been made that produce will be accepted and either distributed or converted into cash, and by this means it is felt that everyone can help a bit.

When called on, do your bit, and let us individually and unitedly keep Raymond's good name for helping in these causes, as good, or make it better than it has ever been before.

BANK OF MONTREAL STATEMENT MAKES SATISFACTORY SHOWING

BUSINESS WELL MAINTAINED
TOTAL ASSETS STAND AT \$794,523,333. LIQUID ASSETS AT \$117,406,508 ARE EQUAL TO 58.11 PER CENT OF TOTAL LIABILITIES TO THE PUBLIC—SAVINGS DEPOSITS HOLD AT HIGH LEVEL—PROFITS FOR YEAR, WHILE LOWER, COVER FULL REGULAR DIVIDEND AND USUAL APPROPRIATIONS.

The Bank of Montreal—for the fiscal year to October 31st—is forwarding to its shareholders a strong and satisfactory statement. Under the general conditions that prevailed during the period there is, as expected, a decline in total assets, as also in profits. Perhaps the outstanding feature is the manner in which the business of the Bank, as represented by current loans, has been maintained. It is also of interest to note that deposits bearing interest, in which is included the savings department, are practically unchanged from those of the previous year.

Among the largest gains reported are the high class holdings in government and municipal securities. This is apparently due to the steady reduction that has occurred in the call loan department. Shareholders are sure to appreciate the strong showing made in face of the unsettled business conditions and will readily note the resources available to take care of any business expansion that may occur throughout the country. The statement, which is published everywhere in easily understandable form gives considerable information regarding the main features of the Bank's position.

LIQUID POSITION STRONG

At the end of the fiscal year total assets were \$794,523,333, down from \$826,969,537 at the end of the previous year. Of this amount quickly

available resources amounted to \$117,406,508, equal to 58.11 per cent of all liabilities to the public. Included in these liquid assets are government and other bonds and debentures to a value of \$236,433,817, the majority of which are gilt edged securities which mature at early dates. Included in them are Dominion and Provincial Government securities amounting to \$139,089,426, up from \$131,107,184; Canadian municipal securities and British, foreign and colonial public securities of \$58,031,199, compared with \$46,147,441; and railway and other bonds, debentures and stocks, \$11,095,241, up from \$5,074,726.

The holdings of cash and deposits in Central Gold Reserve total \$83,625,914, at which level they are equal to 11.64 per cent of public liabilities.

BUSINESS WELL MAINTAINED
Just how well the business of the Bank has been maintained under less active industrial conditions is indicated by total current loans in Canada of \$291,111,569, compared with \$290,872,423. At the same time deposits bearing interest are \$539,922,593, against \$540,977,246, while total deposits are now reported at \$699,047,251.

The Bank reports that with its total assets of \$711,523,333 it has liabilities to the public of \$718,330,729, which leaves an excess of assets over these liabilities, in the form of capital, surplus, undivided profits and reserves for dividends, of \$75,192,601.

PROFIT AND LOSS ACCOUNT

The profit and loss account reflects the less active conditions. Profits for the year are substantially below those of the previous year, but were sufficient to cover the payment to shareholders of the regular dividend and at the same time make provision for Dominion Government taxes, and reserves for bank premises, as well as to permit of a further contribution to profit and loss account. They however, did not permit of any bonus to shareholders.

Profits for the year were \$5,386,478, equal to 7.18 per cent on the combined capital and undivided profits as compared with \$6,519,031 in the previous year. From these, payments made were dividends to shareholders of \$4,320,000; provision for taxes Dominion Government of \$610,000; reservation for bank premises of \$300,000; leaving a balance of \$1,556,478, which brought profit and loss to be carried forward up to \$1,103,426.

Perce's Premier Orchestra was in Lethbridge on Thursday and broadcast over CJOC during the dinner hour on the Ford and Artie programs. Their numbers were greatly appreciated, especially by the people of Raymond and district where they are all so well known.

The mild weather of the past week has reduced the daily consumption of coal and reduced sales correspondingly.

A DOLLAR EARNED OR FIVE BORROWED

At a time when public and private bodies are doing their utmost to provide work for those who cannot find jobs, often through no fault of their own, it appears appropriate that close consideration should be given to the manner in which relief works for an employment are being implemented.

It is a fact that monies spent on public works become a charge upon the productivity of the nation. At the present time our governments—federal, provincial and municipal—are not able to carry out mooted projects without entailing fresh financial obligations which will have to be met from taxation in one form or another. This happens at a time when business conditions, only of necessity, warrant increased levies and when our monetary resources have to be carefully husbanded for the building up of private enterprise and the provision of ample capital when further economic progress is again at hand. It would be a thousand pities were our business advance to be over-handicapped by taxation mill stones. It is therefore, peculiarly gratifying to note that on the whole our representatives are seized with the full significance of the grave responsibilities with which they are confronted.

The generosity of the citizens in readily acquiescing to very large expenditures for unemployment relief is not to be construed, however, as meaning easy money, especially as easy money is never wisely spent. It must at all times be remembered that every dollar that goes into public works is provided out of the revenues of private enterprise. Taxation is an item in business overhead just as wages, rent, taxes and depreciation are.

From various quarters a few cases have been brought to our attention which clearly show that closer consideration may well be given to the fundamentals of business and economic representatives of the people. It has in fact been said in one or two instances that public credit may be impaired unless the counsels of business men are heeded in respect of public borrowings. This is a serious warning, and considering the sources of the opinion, should be listed to with due deference. There should be no question that Canadian public credit, whether federal, provincial or municipal should continue to stand on the top rung of the ladder in international money markets. It is altogether desirable that such an enviable position be carefully safeguarded and maintained.

There is furthermore it is reported a tendency in some municipalities to advocate the payment of higher wages for labour on relief work than are being paid in industry. This is a mistake from two angles. First it can only result in less labour being employed with the sums granted or in more money being borrowed, the one is not what is desired while the other is considered unsound; second that labour presently engaged in industry might be lured to drift away to relief work so aggravating the problem and giving it a false appearance by the fact of many applying for relief work who could be employed in industry and are not therefore in really jobless, or that demands will be made upon industry on account of this unwise extravagance to raise wages when such is neither warranted by nor possible on account of the business conditions.

We must think more about earning an honest dollar than spending a borrowed five.

A healthy continuation of the capitalist system is essential to the country's economic prosperity and this would not be possible if we were to resort to practices which are not in harmony with the system or which would react unfavourably against our competitive power and credit standing in international circles. At the same time the community are making sacrifices because they have to accept the fact that it must be deprived this year of dividends in the interests of sound business and labor too should

co-operate by accepting slightly reduced wages for a while to aid the country in reestablishing itself. The fact remains, and of necessity must be faced, though at the same time labor as well as capital, stands to benefit from such a policy.

It is as manifestly unsound for governments as it is for business to buy either labor or materials at a higher price than market value in contravention of the law of supply and demand. It is an encouraging sign, however, that public bodies are seeking the counsel and co-operation of

the business community in framing relief policies and programs, and we are confident that government and business will carefully avoid any unwise steps which may tend to mitigate against our economic progress. "Are governments spending wisely?" is a timely question for consideration by business men and taxpayers, and their organizations in various Canadian communities. Every dollar spent from public monies should command full current value in goods and services. — Commerce of the Nation.

ALICE STEVENS' HOME SERVICE

A Service Created to Assist Canadian Homemakers
Conducted by Alice Stevens, B.Sc., H.E.

REDUCING DIETS NEED CAREFUL PLANNING

Consult a doctor if you are very much overweight and do not try any of the following remedies. For the person who has a tendency towards being overweight, a little attention to the diet is advised.

The amount of food eaten should be lessened but care should be taken to see that the body is supplied with sufficient protein, mineral matter and vitamins. At the same time, food should be eaten that will keep the person from feeling hungry.

Fewer fat foods should be used. Avoid whipped cream, olive oil, bacon, etc., and use butter very sparingly. Smaller amounts of starches and sugars should be used. The distress of hunger is best avoided by using bulky foods.

Fat fruits, particularly apples. Apples, supply the body with vitamins and mineral matter. At the same time they satisfy the hunger without in-

creasing the calorie intake too much. Tomatoes and leafy green vegetables such as spinach, lettuce and cabbage are also recommended.

Clear meat soups rather than cream soup should be used. These are low in food value but are satisfying. Potatoes are preferable to bread in reducing diets. Brown bread is much better than white bread because the bran supplies the bulk.

Exercise as well as diet must be considered. This exercise should be mild and continued rather than violent. Walking is one of the best forms of exercise for the overweight person.

Salads are low in calorie count. They are particularly recommended for reducing diets. They help appease the appetite and supply mineral matter and vitamins. Avoid oil dressings. The salad recipe and the dressing recipe given below are popular with women but are particularly suited for overweight people.

SALAD DRESSING

1/2 teaspoon salt

1 teaspoon mustard
1/2 cup cold water
1/2 cup vinegar
1 egg
1 tablespoon butter

Mix the dry ingredients together. Add water and vinegar. Cook, stirring constantly, until the mixture is steaming. Pour slowly over the heat. Egg yolk. Cook over hot water, stirring until the mixture is smooth and thick. Add the butter and cook one minute longer. Cool and fold in the stiffly beaten egg white.

REDUCING SALAD

Shred cabbage very fine. Add dressing. Add apples which have been cut in small pieces. Mix the apples with the dressing and cabbage as quickly as possible to prevent discoloration. Garnish with raw carrot which has been grated.

Do you find it difficult to make salads in the winter when the supply of fresh vegetables is less? Apples are available, and they form the basis of many tasty salads. Have you ever tried making a moulded vegetable salad? This makes a nice change. This recipe is included in a booklet of thirty salad recipes. I am pleased to send this booklet to you on request. Use the coupon at the bottom of this article.

HOUSEHOLD HINTS

Light colored walls in the kitchen reflect the light and make a cheerful workroom.

Baked apples may be stuffed with some left over cereal, such as oatmeal.

Vitamin A increases resistance to colds. It is found in fat foods such as butter and yellow foods such as carrots.

Foods which are attractive in appearance are more easily digested.

Dear Alice Stevens:
Vernon, B. C.

Please send me the salad recipes mentioned in this article.

BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form,
of the Bank's

ANNUAL STATEMENT

31st October, 1931

LIABILITIES

LIABILITIES TO THE PUBLIC

Deposits	\$669,047,251.38
Payable on demand and after notice.	
Notes of the Bank in Circulation	38,028,370.50
Payable on demand.	
Letters of Credit Outstanding	8,943,524.05
Financial responsibilities undertaken on behalf of customers for commercial transactions (see offsetting amount in "Resources").	
Other Liabilities	2,311,583.19
Items which do not come under the foregoing headings.	
Total Liabilities to the Public	\$718,330,729.12

LIABILITIES TO THE SHAREHOLDERS

Capital, Surplus and Undivided Profits & Reserves for Dividends	\$ 76,192,604.84
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence.	
Total Liabilities	\$794,523,333.96

RESOURCES

To meet the foregoing Liabilities the Bank has

Cash in its Vaults and in the Central Gold Reserves	\$ 83,625,914.91
Notes of and Cheques on Other Banks	35,794,511.20
Payable in cash on presentation.	
Money on Deposit with Other Banks	22,270,311.79
Available on demand.	
Government & Other Bonds and Debentures	236,433,817.82
Gift-edge Securities the majority of which mature at early dates.	
Stocks	1,785,228.94
Railway and Industrial and other stocks at or below market value.	
Call Loans outside of Canada	28,252,802.06
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing money quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	9,243,921.73
Payable on demand and secured by bonds and stocks of greater value at current quotations than the loans.	

TOTAL OF QUICKLY AVAILABLE RESOURCES (equal to 58.11% of all Liabilities to the Public) \$487,406,508.45

Other Loans 348,525,148.48

To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.

Bank Premises 14,500,000.00

Three properties only are carried in the names of holding companies; the stock and bonds of these companies are entirely owned by the Bank and appear on the books at \$1.00 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.

Real Estate and Mortgages on Real Estate 1,735,466.32

Acquired in the course of the Bank's business and in process of being realized upon.

x Customers' Liability under Letters of Credit 8,943,524.05

Represents liabilities of customers on account of Letters of Credit issued by the Bank for their account.

Other Assets not included in the foregoing 3,412,686.66

Making Total Assets of \$794,523,333.96

to meet payment of Liabilities to the Public of 718,330,729.12

leaving an excess of Assets over Liabilities to the Public of \$ 76,192,604.84

PROFIT and LOSS ACCOUNT

Profits for the year ending 31st October, 1931	133,366,379.57
Dividends paid or payable to Shareholders	\$4,320,000.00
Provision for Taxes, Dominion Government	610,000.00
Reservation for Bank Premises	300,000.00
	\$5,230,000.00
Balance of Profit and Loss Account, 31st October, 1930	\$ 156,379.57
Balance of Profit and Loss carried forward	947,047.38
	\$1,103,426.95

CHARLES B. GORDON,
President

W. A. BOG,
JACKSON LODGS,
Joint General Managers

The strength of a bank is determined by its history, its policy, its management and the extent of its resources. For 114 years the Bank of Montreal has been in the forefront of Canadian finance.

News Notes

Gordon Brewerton of Cardston was a Raymond visitor on Tuesday of this week.

Salvation Army members were in Raymond on Tuesday soliciting aid for their organization.

Ice making has continued steadily at the rink and Saturday afternoon the kids were turned loose to cut down the sheet. Sunday and Monday found crowds again skating and the ice improving all the time.

ALREADY DEAD

A certain Missouri editor refuses to publish obituary notices of people who, while living, failed to subscribe to his newspaper, and gives this pointed reason: "People who do not take their home town paper are dead anyway, and their passing away has no news value."

GOLDEN RULE OFFERED FOR BUSINESS GIRLS

CHICAGO, Nov. 13—(U. P.)—A golden rule for business girls was announced Thursday, by a business girls organization as follows:

Keep thin. The boss likes you better

that way.

Don't chew gum. A dignified silence is far preferable.

Watch the lipstick. No one likes to look at the scene of a murder.

Do what the boss wants, the way he wants it, even though he won't raise your salary.

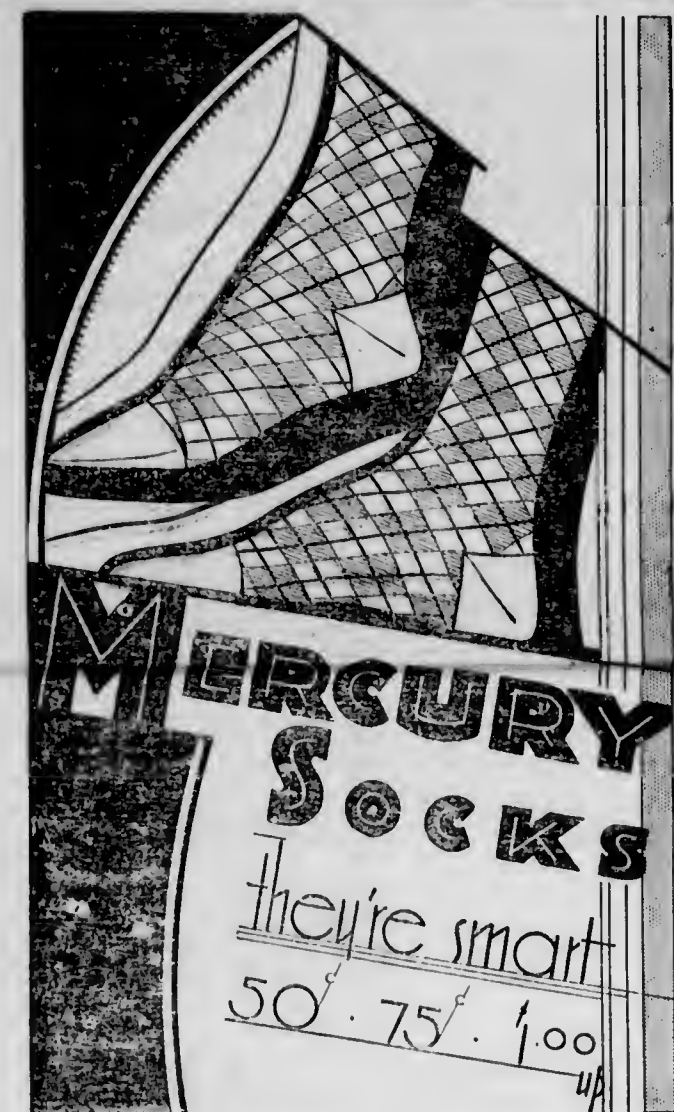

Eat your spinach. Your cosmetic bill will be less.

Keep clean. There's no virtue like a well scrubbed neck.

Keep your mind. It pays and pays, and pays.

There's no substitute for eight hours sleep. Get it.

Don't gossip. The tongue is longer than the sword.

GOLDEN EMBLEMS OF HAPPINESS ARRIVE

Surest harbingers of a fast-approaching Yuletide, more than two million Japanese oranges have reached the Prairies in refrigerator cars of the Canadian National Railways. The first consignment of these golden emblems of Christmas happiness consisted of 25 carloads, with fourteen cars billed for distribution from cities in Western Canada and eleven from Ontario centres. Further consignments of Japanese oranges will arrive in Vancouver from the Orient on December 1st and December 7th and will comprise more than 60 carloads.

News Notes

WINDOW CARDS — Printed on Short Notice. Large or small. Cost but little. — The "Recorder".

The Stirling M. I. A. is presenting the drama "The Reckoning" in the Stirling Hall tonight. They are expecting to present it in other towns soon.

THE OTHER SIDE OF THE ROAD

The priest and Levite passed him by with cold indifferent mien. "We cannot help this man," they said. "His faults are plainly seen." "This true, he has been too heedless. He is hungry, sick and cold; he should have been more careful then, So not for him our gold!" They left him lying in the road, And cared not though he died; And, lifting holy hands in prayer Passed on the other side.

But one there came — with gentle hands He raised the fallen head, He bathed his wounds and cheered his soul, And nourished him with bread, And gently carried him away To a fair place of rest, This wondrous "Good Samaritan" — Long has his name been blest. Still men there be who walk today And draw their cloaks aside; But blest is he who passes not Upon the other side.

News Notes

J. D. Hall was in Lethbridge on business on Wednesday of this week.

The snow was melting quite rapidly on Wednesday, and water running before evening.

C. E. Allred has a touch of blood poison in his left hand, and while not very serious has caused him considerable pain.

Magistrate J. W. Low, Cardston and Cons. W. Ellis Magrath, were Raymond visitors on Tuesday of this week.

Notice to Skaters

All Skaters will be required to have tickets after Sunday and must skate according to Schedule.

Ticket may be purchased at Rink. C. Fawns.

Ralph Webb has been returned as Mayor of Winnipeg for his fifth term by an overwhelming majority over all opposition.

Robert English has been made Deputy Minister of Municipal Affairs and John Harvey, Deputy Minister of Lands and Mines in the Alberta Government. Both these men have been in the service of the Province

for many years and will be a real asset of the staff of Deputies at Edmonton. Mr. English is well known to practically all Municipal officials in the Province.

Herman Treble, Wembley Alberta is again World's Wheat King because of his wins in the Chicago Show now on. Of the 72 winners in Hard Red Spring Wheat, 68 of the prizes went to western Canada Growers. It looks as though the best grains could still be grown in western Canada.

J. F. Buckley, Liberal M. P. of AT-

tribasen riding was killed in an auto accident last Friday night, when his car crashed into a wagon and the tongue pierced the car and struck deceased's head so hard that he died on the way to the hospital.

Howard Rasmussen and Elder Willshire returned from the Regina Conference of the North Central States Mission on Saturday evening. They spoke briefly in the 2nd ward Conference Sunday evening and expressed their joy at being present. Mr. Willshire will go on to his home in Utah after a visit here.

Canadian Pacific is Leader in Team Work And Good Will With Organized Labor Bodies

Nearly 46 years ago, the Canadian Pacific set the pace for all the other railroads on the American continent, by completing the first known wage agreement for railway employees, in the establishing of a schedule of regulations and rates for engine-men between Montreal and Chalk River, Ont.; dated February 1, 1886.

The story is ably told in the "Railway Car-men's Journal," by J. A. P. Haydon, "Labor's Canadian representative, a brief resume of whose article follows here:—

Looking back on the half-century of the company's history, the event seems almost prophetic in its importance, for as Mr. Haydon points out, it is doubtful if any organization has been maintained and is continuing to maintain such good relations with its workers. Today, 17 different labor bodies are recognized by the company; collective discussion has replaced individual dealings; conciliation replaces strikes and lockouts and, in a word, team work is the order of the day.

Neither the Brotherhood of Locomotive Engineers nor the Brotherhood of Locomotive Firemen and Engineers has ever been involved in a strike or lockout with the C.P.R. Hugh Richmond, general chairman of the general grievance committee of the latter organization, says: "The best of relations have always existed and still continue between our organizations and the com-

pany". Thus, today, the fruit of the pact of 1886 is still being harvested.

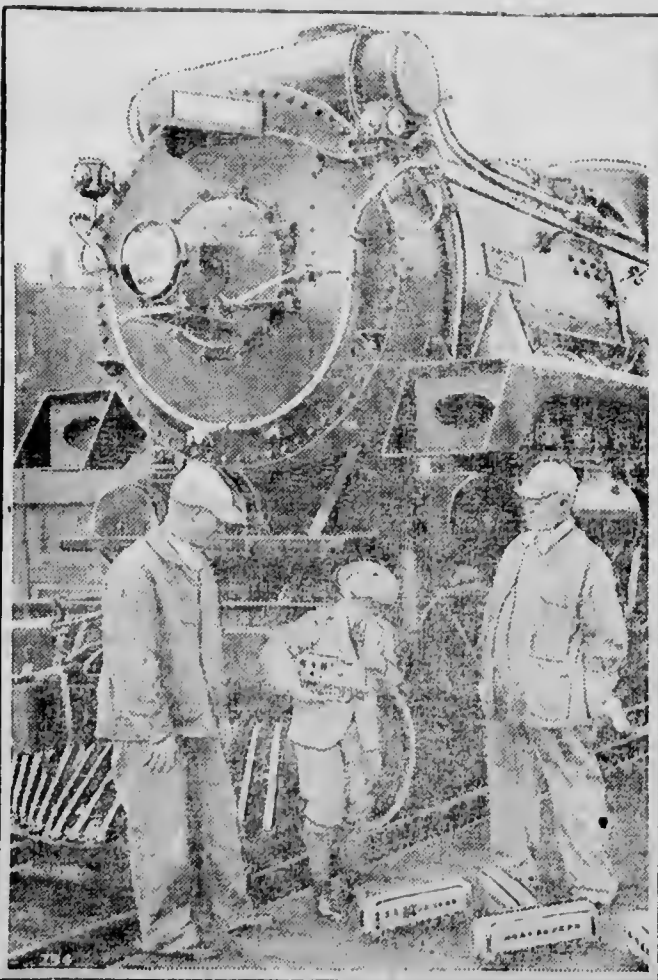

Similar experiences can be culled from many other branches of organized railway work. For example, Hon. G. D. Robertson, Minister of Labor and for many

about 1890, however, the employees of the railway, then being established and making slow progress with substantial assistance from government sources, could give consideration to its employees' welfare as well as to its own.

The employees, recognizing that railways are not charitable institutions, organized, and through their elected representatives negotiated with the Canadian Pacific Railway Company to establish contractual relations covering working conditions and rates of pay. Thus the Canadian Pacific was the first railway in Canada to extend general recognition of the principle of collective bargaining and union recognition to its employees.

"For about 30 years, or from 1890 to 1918 the Canadian Pacific Railway has been foremost of all railways in Canada in extending courteous, reasonable treatment to its employees, while during the past ten years it has closely co-operated with other lines, thereby standardizing and stabilizing the whole railway wage situation". The picture shows W. L. Stevens, engineer with 44 years of service, his

son G. W. Stevens, who has been 19 years with the C.P.R., and the latter's son, Clifford H. Stevens, aged 12, who bids fair to be the representative of the third generation on the footplate. What are eloquent testimonies of good relations between the company and its employees could be found?
